**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1-8, 10-14, and 16-31 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The Applicant amended claims 8, 12, 14, and 16, canceled claims 9 and 15, and presented arguments in favor of allowance of the claims, according to the "Amendment in Response to Non-Final Office Action" received May 12, 2008. Claims 1-7 and 26-31 have previously been allowed as per the first "Office Action" mailed out February 12, 2008.

With respect to the newly amended independent claims 8 and 14, as well as independent claim 23, the Applicant demonstrated to the Examiner's satisfaction that the 35 U.S.C. 102(e) rejection over the reference of Makarov et al. (2004/0222369 A1) is not applicable to the Applicant's invention.

With respect to independent claims 8 and 14, Makarov et al., as well as any other prior art, fail to disclose or make obvious, in combination with other recited features of the claim limitations, a mass spectrum measurement employing an apparatus and method comprising an ion source, a mass spectroscopy portion, and an RF power supply, with a mass spectroscopy data acquisition means for performing the selection and dissociation of an ion species  $n-1$  times ( $n > 1$ , where  $n$  is an integer) and acquiring a peak of measurement intensity against the mass-to-charge ratio of the ion that has been selected and dissociated; and next analysis content determination means for determining the analysis content in an  $n$ -th stage mass spectroscopy based on the result of determination by a correspondence determination means.

With respect to independent claim 23, Makarov et al., as well as any other prior art, fail to disclose or make obvious, in combination with other recited features of the claim limitations, a mass spectroscopy apparatus comprising: an ion source for ionizing a sample; a first database in which a data sequence of an analysis object candidate substance is recorded; and wherein a control portion for issuing an instruction for selecting an analysis object ion that corresponds to the data in said first database.

The dependent claims 10-13, 16-22, and 24-25, are allowable by virtue of their dependence upon the independent claims 8, 14, and 23, respectively.

### ***Conclusion***

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
